

BUYS 200 GAS LAMPS

M. & M. Oxygen Company
Gals the Contract.

IN PLACE BY CARNIVAL

Council Passes Several Important Ordinances.

The city council met in adjourned session last night and awarded the contract for furnishing vapor lamps to the city to M. & M. Oxygen company of Kansas City. The city purchased the lamps outright and will maintain them. The contract price is \$2 each. The lamps have been posted and as far as appearance goes, they are an ornament to any town.

The following were the three bills for the lamps: The Economy Gas Lamp company offered to furnish two hundred lamps with iron posts at \$2 each. The second bill was for two hundred lamps at \$2.50 each. The third bill was for two hundred lamps at \$3 each. The council would not sell the lamps under any condition.

The M. & M. Oxygen company of Kansas City, offered to furnish two hundred lamps with iron posts at \$2 each. The company would not rent the lamps and only sold them to cities or private concerns.

At first the members of the council were not divided on the number of lamps to purchase. Mr. Lacy wanted to buy only 100, while most of the other members wanted at least 200, and some wanted more than that number. Mr. Smith moved that 200 lamps of the M. & M. company's lamps be purchased. The advocates of the other lights moved amendments to this so that their company would come in, but all were voted down. When the vote came on the main question, it was carried, with only two dissenting votes.

The committee on lighting was ordered to meet with the city attorney and the representative of the company and make the contract for the lamps. The council also decided that the lamps be in place and in working order before the street fair, and the men who have charge of the lamps were of the opinion that this could be done.

Each of the three companies who offered bids had a man direct from the factory or an attorney to represent them before the council. George Adams was the attorney for the Walshbach company, Otto Eckstein had charge of the interests of the M. & M. company while the Economy company had two of its own men at the meeting.

Nearly all the councilmen took sides from one company to the other, and they reported their favorite to the end. After it was found that the Walshbach company would not sell their lamps, the fight settled down to between the two firms. The M. & M. company is the older, and this seemed to have some effect on the members.

When the council was called to order by Mayor McLean and the minutes approved, the council settled down to routine business and listening to the reports of standing committees. The committee that was appointed at the special meeting last week to see after the adoption of the ordinance, and the company ordered to place its poles in the alley between Tremont street and Santa Fe avenue between Douglas and Kellogg.

A man wants to haul with through the streets in day time. He agrees to use an inclosed steel tank. The members of the council indulged in considerable argument about the matter; nearly all were in favor of it. The tank is a very ingenious affair, the doors are so built that when they are closed, absolutely no odor can escape. All wanted some way that would do away with the present system. The present ordinance says that tank will be hauled in the day time, but is very often substituted. The matter was referred to the health committee and city attorney, with instructions to prepare an amendment to the present ordinance that would allow the hauling of slops in a steel tank during the day.

The city engineer reported that the people in the south end of town were asking for the grade and line of curbing for the streets in their part of town. Mr. Davidson moved that the city engineer be instructed to not give any one lines until after the date of the protests had expired.

The city clerk was instructed to advertise for bids to furnish fuel for the city, the bids to be opened at the next regular meeting.

Mr. Kernan moved that the bill for paying the land for its contents be withdrawn. There has been no action in Kansas City since July 11. Mr. Kernan withdrew his motion on condition that there be paid twice in the Hamilton park at least twice each month.

The people along Feltz avenue want the water mains extended to that street from Douglas avenue to Kellogg street. The people have a petition before the council requesting the water company to extend their mains there. This was granted.

The following petition for sidewalks was granted:

- On the east side of Water street, from Markham avenue to North street.
- On the west side of Main street, from North street to Tenth.
- On the north side of Walnut street, from Water street to Main.
- On the west side of Main street, from Gubern to Tenth.
- On the north side of Central avenue, from Main street to Riverside park.

The Missouri Pacific railroad wants to move their Twelfth street depot to their freight house, between First and Second streets. The matter was referred to the fire committee.

Blake & Ayers sent a communication to the council, saying that the claim of P. J. Tanager be referred to the judiciary committee again. This claim has been before the committee before, but was not settled. It arises from the quarantine of the Tonka Avenue hotel. The communication was placed on file.

Kiss Harris, attorney for James Campbell, sent a communication to the council.

Washington, D. C.
Geniose Pure Food Co., Le Roy, N. Y.
Geniose: Our family makes us users from the use of GENIOSE that I feel I must say a word to induce others to use it. If people are interested in their health and the welfare of their children they will use no other beverage. I have used them all, but GENIOSE I have found superior to any, for the reason that it is a solid grain. Yours for health.

Eruptions

Dry, moist, scaly, tetter, all forms of eczema or suit rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and strengthen it against their return.

Hood's Sarsaparilla permanently cured J. G. Hines, Frank, Ill., of eczema from which he had suffered for some time; and Miss Alvinia Walter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

Hood's Sarsaparilla
Promises to cure and keeps the promise. Don't put off treatment. Buy a bottle of Hood's today.

Of asking that the taxes on the Spring Grove Farm and Second additions be returned. This land was vacated by the city and has been declared out of the corporate limits. The communication was placed on file.

The police judge made a monthly report as follows:

EXPENDITURES.	
Police force salary.....	\$1,525.21
Lighted watch.....	\$4.32
Mosk for prisoners.....	\$2.75
Horse and buggy.....	\$4.25
Total.....	\$1,536.53

ASSETS.	
Fines.....	\$97.50
Portals.....	\$252.04
Total.....	\$349.54

The health board made the following report:

Cases, Deaths.	
Smallpox.....	1
Typhoid fever.....	2
Scarlet fever.....	15
Whooping cough.....	1
Consumption.....	4

Forty-six people died in this city during the month of August.

The treasurer reported as follows:

Balance to credit of city in various banks of city, \$12,212.32.

An ordinance extending the fire limits was passed. The fire limits are as follows:

Douglas avenue, from river to Washington street; Wichita street to Second street; First street, from Douglas to Lawrence avenue; Waco avenue, from Douglas avenue to First street; Water street, from Second to William; Main street, from Douglas to English; Market street, from Second to English; Lawrence avenue, from First to William; Tenth street, from First to English; Emporia, from First to William; St. Francis, from First to William; and all territory in and lying between Douglas avenue on the north and Washington on the east.

An ordinance was passed ordering the issuance of an internal improvement bond in the sum of \$12,212.32 to John M. Conant for the construction of sidewalks.

On ordinance was passed ordering an internal improvement bond in the sum of \$20 to the Wichita Bridge company for the construction of the bridge across the river at Douglas and Washington avenue.

On ordinance was passed placing a tax of \$2.00 on persons selling goods on the streets. This ordinance relates to auctions.

HUNTING A RELATIVE

Vermilion Unable to Find Him at Newton, Texas, Wichita.

The Newton Republican prints the following: "Strange, but it, how relatives sometimes lose track of each other! Mr. Godfrey Burkhardt of Vermilion, Illinois, called at the court house today and had the officials there look over the books to find out whether or not William Eider is a resident of the county. He failed to possess himself of the desired information, either at the court house or in the real estate office at which he called. The two are cousins, and had not seen or heard of each other for 15 years. The last Mr. Burkhardt heard of his brother he was living in Harvey county. This afternoon Mr. Burkhardt gave up the search and went to Wichita."

EAGLE CARNIVAL WANT COLUMN.

Room Renters and Those Wanting Rooms.

During the street carnival and soldiers' reunion, Wichita race meeting, all the same date, there will be a great demand for rooms and boarding places. Inquiries are already coming in. In order that the many people who desire to rent rooms, with or without board, may be able to reach these people, the Eagle will establish a carnival want column for the special use of renters for the next four Sundays, at one-half cent a word for each insertion. There will be thousands of people who will want rooms and board and many who will want rooms without board.

The Eagle's carnival want column will bring them together as easily and quickly. The readers of the Eagle are the people who are coming to the carnival from the south and southwest and east along the three trunk lines of railroad. There will be four Sundays, giving the renters ample opportunity, but not too much time. Bring in your want ads for the Eagle's carnival want column and get what you want without trouble and at a very small cost, so that people coming can correspond with room renters and not lost.

IN HYDE PARK.

Sanford's Band Will Give a Concert This Evening.

Sanford's band will give their regular mid-week concert this evening, in Hyde park. The music will begin promptly at 8:30. The following is the program:

March..... The Great Captain
Overture..... Scouters
Overture..... Pioneer Cafe
Overture..... The Union Forever
Overture..... Scouters
Gavotte..... Standfast
Maiden Overture..... Meyer
War Song of the Boys in Blue

March..... Laurels
March..... Greater America
March..... St. John's

Dr. Cook of Eliza was in the city yesterday morning from his old home in Georgia. The doctor, although a very young man, has been mayor of Eliza twice and was urged strongly to be a candidate for congress last year. He informed a reporter yesterday that he intended to locate at Stillwater, Ok. T. is the preacher of denistry.

MORE OFFICE ROOMS

Cone & Cornell to Erect a 3-Story Brick Building.

GROUND SOLD FOR \$4,500

South Lawrence Avenue Lots Advancing in Price.

Yesterday the real estate firm of Davidson & Christman sold the property on the northwest corner of Lawrence avenue and William street to Cone & Cornell for \$4,500. Messrs. Cone & Cornell are intending to build a three-story brick building on their newly acquired lots. In the near future, the building will be built very similar to their laundry building, only that it is to have an additional story. It will be built of pressed brick and the front will be of stone, and will be outside of a fine building an ornament to the city. It will be built on the corner of the lot and will be built within two years. It is the intention of these gentlemen to use the rear of the new building for storage of laundry supplies and extra machinery for which they at present have not room enough. The lots at present are occupied by a dwelling house and are located across the street from the room block. They were formerly owned by Mr. Charles Davidson of this city. Real estate agents say that the price of ground on South Lawrence is continually advancing and that it is the intention of building business buildings and convert the first two blocks south on Lawrence avenue into business blocks.

Tested the real estate firm of Davidson & Christman sold the property on the northwest corner of Lawrence avenue and William street to Cone & Cornell for \$4,500. Messrs. It will be built on the corner of the lot and will be built within two years. It is the intention of these gentlemen to use the rear of the new building for storage of laundry supplies and extra machinery for which they at present have not room enough. The lots at present are occupied by a dwelling house and are located across the street from the room block. They were formerly owned by Mr. Charles Davidson of this city. Real estate agents say that the price of ground on South Lawrence is continually advancing and that it is the intention of building business buildings and convert the first two blocks south on Lawrence avenue into business blocks.

Tested the real estate firm of Davidson & Christman sold the property on the northwest corner of Lawrence avenue and William street to Cone & Cornell for \$4,500. Messrs. Cone & Cornell are intending to build a three-story brick building on their newly acquired lots. In the near future, the building will be built very similar to their laundry building, only that it is to have an additional story. It will be built of pressed brick and the front will be of stone, and will be outside of a fine building an ornament to the city. It will be built on the corner of the lot and will be built within two years.
